

DEAR PARENT

As the date for the course at Skern Lodge approaches we wanted to reassure you of our commitment to high standards of care. Having read these notes, if you feel you need further clarification please do contact us.

- Skern Lodge supports all initiatives that improve standards of safety in outdoor activities. Skern Lodge is licensed to operate under the Adventure Centres (Young Persons Safety) Act and the Skern Lodge safety policy is to ensure the highest standards.
- All adventure equipment is provided. It is modern, has BSI and EN standard if appropriate and is carefully maintained. Please see the kit list below for details of personal clothing.
- All instructors have first aid and lifesaving certificates as a basic requirement. All activities are supervised by instructors with the approved qualification for the activity. All staff, regardless of qualification, are regularly trained, reviewed and appraised.
- The maximum ratio on adventure activities is 1 qualified instructor to 8 clients and this **includes** adult helpers.
- Most of our instructional staff live on-site. There is a Duty Instructor on call on-site out of “normal” hours. Flood lights are kept on all night and the gates locked for security. Bedroom or building doors have locks.
- Skern Lodge has a modern automatic fire detection system and regularly holds practices and drills. We have on-site first aid posts and each instructor carries a first aid kit at all times. The local doctor is on call at all times.
- All drivers are over 21 and have PCV (Passenger Carrying Vehicle) driving licences for minibuses. Driving standard are rigorously enforced. All our vehicles are modern minibuses that are inspected daily and regularly maintained. All buses have forward facing seats with seat belts for every person.

We look forward to giving your child an **exciting, educational, adventurous and safe** experience at Skern Lodge that will be of value forever.

Yours sincerely
The Skern Lodge Staff Team
